

Contents

Preface — VII

- 1 Evolution of Mobile Networks — 1**
 - 1.1 Connection Concepts and Routing Principles — 3
 - 1.2 Evolution of 2G/3G Mobile Networks — 9
 - 1.3 NGN (Next Generation Network) — 14
 - 1.4 VoIP (Voice over IP) and SIP (Session Initiation Protocol) — 18

- 2 3G/4G Mobile Networks and NGN (Next Generation Networks) — 30**
 - 2.1 3GPP Releases (3rd Generation Partnership Project) — 30
 - 2.2 IMS (IP Multimedia Subsystem) and NGN — 32
 - 2.3 H.248/Megaco Protocol — 40
 - 2.4 Diameter Protocol — 46
 - 2.5 SAE (System Architecture Evolution) and LTE (Long Term Evolution) — 58
 - 2.6 VoLTE (Voice over LTE) — 61

- 3 Future Networks — 65**
 - 3.1 NFV (Network Functions Virtualization) and MEC (Multi-access Edge Computing) — 65
 - 3.2 SDN (Software Defined Networking) and SFC (Service Function Chaining) — 74
 - 3.3 Future Networks Concept — 94

- 4 5G Use Cases and Requirements — 98**
 - 4.1 5G Use Cases and Usage Scenarios — 98
 - 4.2 Application Areas for 5G — 106
 - 4.3 5G Requirements — 111

- 5 5G Standardization and Regulation — 119**
 - 5.1 Frequencies — 119
 - 5.2 Standardization — 123
 - 5.3 Regulation — 125

- 6 5G Networks at a Glance — 133**
 - 6.1 Design Principles — 133
 - 6.2 Features and Functions — 135
 - 6.3 5G Network Architecture — 140

7	5G Access Networks — 143
7.1	Radio Transmission Technology — 143
7.2	RAN (Radio Access Network) — 155
8	5G Core Network — 164
8.1	Core Network Functions — 165
8.2	Service Based Architecture (SBA) — 168
8.3	Network Slicing — 176
9	5G System — 183
9.1	4G/5G Migration — 185
9.2	5G and IMS — 188
9.3	Access Networks and Fixed Mobile Convergence (FMC) — 189
9.4	5G System in an Overall View — 197
10	5G and Security — 201
10.1	Security for the Communication Network — 205
10.2	Security in the Cloud Infrastructure — 207
10.3	3GPP Security Architecture for 5G — 213
11	5G and Environment — 219
11.1	New Issues through 5G Technology — 219
11.2	Electromagnetic Radiation and Health — 220
11.3	Exposure and Limit Values — 224
11.4	Influences of the Network Architecture — 226
11.5	Energy Requirements and Raw Materials — 228
12	Future Developments — 231
12.1	Further Development of 5G — 231
12.2	Network 2030 — 234
12.3	6G Considerations — 242

Abbreviations — 251

References — 265

Index — 275
